REASONS FOR ALLOWANCE

1. These comments are made in addition to the remarks in Applicant's specification and arguments, concerning the manner in which the invention distinguishes from the art discussed therein. The Examiner notes that the prior art does not disclose or suggest the claimed combination including particularly a control system for regulating a dispenser, the control system controlling a feeder bowl vibration device, a rotation drive for rotating one or more dispensing paths and at least one dispensing path vibration devices so that said feeder bowl receives a plurality of items and supplies those items uniformly to each of said dispensing paths, and said dispensing paths dispense said items singularly. The prior art lacks this structure or anything equivalent to it.

The closest prior art includes Mikami et al (US 4,398,612), Sugioka et al (US 4,561,510) and Simionato (US 5,613,590). Mikami discloses feeder bowl (1) with feeder bowl vibration device (2) and dispensing paths (3) with dispensing path vibration device (7). Neither the feeder bowl nor the dispensing paths rotate. Sugioka discloses feeder bowl (15) with bowl vibration unit (16) and bowl drive unit (17). Sugioka also discloses dispensing paths (14), however there is no rotation drive or vibration unit for this element. Simionato discloses feeder bowl (12) with vibration unit (17) and dispensing path (22) that rotates about shaft (13) by motor (19). There is no feeder bowl rotation drive and there is no dispensing path vibrating unit. It can also be argued that Simionato does not disclose a "feeder bowl", but discloses only dispensing channels (12). Element (23) can also be construed as a stationary feeder bowl. See also co-pending issued cases 10/743,426 and 10/601,670.

The foregoing is an Examiner's Statement of Reasons for Allowance.

Art Unit: 3653

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
